CLINICAL

ADVANTAGE

Maintain Effective Compression When Seated

- o There is more pressure on lumbar anatomy when seated (see below)
- o Despite this fact, our competitors recommend loosening their brace when seated to prevent discomfort
- o SLEEQ braces are designed to be comfortable and effective when sitting or standing

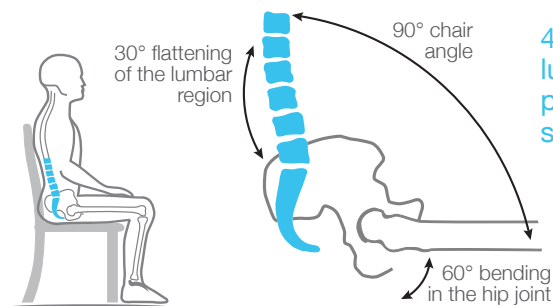

Position While Standing

LORDOSIS

Even pressure on discs

Right Angle Sitting Position

KYPHOSIS

More pressure on discs

40% more lumbar disc pressure when seated.¹
