

Townsend's Rebel Series offers an extremely diverse range of ordering options. Based on the patient's clinical needs and activities, you can configure the brace to optimize control and patient compliance.

Exclusive Customized Fabrication

Townsend is the only orthopedic manufacturer that offers the fit quality and value of a custom brace for a pre-sized price when you order any Rebel Series brace from three leg measurements (see page 24 for instructions). For disproportional legs that need to be fit with a non-custom brace, Townsend's "customized" fabrication is the ideal solution. Our staff will mix and match part sizes and pre-set the width between the hinges to minimize or eliminate the need for you to make fitting adjustments.
